

# RAJ KUMAR BODDANA

## PL/SQL DEVELOPER & DATA ANALYST

**Email:** [raaz1161626@gmail.com](mailto:raaz1161626@gmail.com)

**Phone:** +91 703 644 9501 , **Address:** 2<sup>nd</sup> floor last flat, Opp anadam palace building, Varthur, Bangalore – 560087.

### RESUME OBJECTIVE

SQL & PL/SQL Developer with 4+ years of experience Developing new Database objects, preparing analytic reports, and maintaining the scheduled Jobs.

Possess a Masters in Computers. In Computers and expertise in DB Development. Looking to leverage my knowledge and experience into a role as PL SQL Developer.

### Professional Summary

- Having 4+ years of Experience as Oracle PL/SQL Developer.
- Having Good Experience in Oracle 11g (SQL, PL/SQL).
- Proficient in writing of Stored Procedures, Functions, Packages and Triggers using Oracle (SQL, PL/SQL).
- Having Experience in Collections, Ref Cursors, Bulk collect.
- Experience in creation of Tables, Synonyms, Views and Indexes.
- Experience in SQL\*LOADER for loading the data.
- Experience in Performance Tuning and Data migration.
- Having Good Knowledge of SQL. DDL, DML, TCL Commands.
- Good interpersonal skills, committed, result oriented, Hard working with a quest and Zeal to learn new technologies.
- Having proficient knowledge in understanding new technologies accomplishing projects goals successfully.
- Perform data migrations and manage schema changes and Integrate PostgreSQL with other applications and systems.

### Tools in SKILLS

- SQL & PLSQL
- Developer QlikView
- Hive & Spark Sql
- Data Migration & Analytical Skills
- PGAdmin & PGAgent
- My Sql

## **EDUCATION**

### **Master's in Computers / MPC's**

Dr L Bullayya college, Andhra University, Visakhapatnam 2016 - 2018

### **Bachelor's in Computers / B.Sc.**

Dr L Bullayya college, Andhra University, Visakhapatnam 2013 – 2016

## **Technologies used**

- Oracle 11g / 12c
- IBM DB2.
- QlikView.
- Hive SQL (Flipkart Data Portal)
- PL SQL / SQL Developer Tool

## **EXPERIENCE**

### **System Engineer**

**Block Stake Pvt Ltd, Bangalore, KA / November 2024 – February 2025**

#### **Project: Diam Stake ,Diam Games ,Diam Mini Telegram App ,Validator Node.**

- Write efficient SQL queries to retrieve data quickly and accurately.
- Analyze query performance and identify bottlenecks, implementing optimizations like indexing and query tuning.
- Creating Procedures for Data Manipulation, for Fetching the Data using Functions for auditing creating triggers based on the business requirement.
- Monitor database performance metrics and identify areas for improvement.
- Implement database configuration changes to optimize performance, including caching strategies and partitioning.
- Clearing Blocking Sessions while doing Manipulation on Data.
- Plan and execute data migration strategies from existing databases to PostgreSQL.
- Develop complex stored procedures and functions to encapsulate business logic within the database.
- Work closely with development teams to understand application requirements and translate them into database design.
- Provide technical expertise on database related issues and best practices.
- Proficiency in SQL query writing and optimization techniques.

### **SQL Developer and Data Analyst**

**Flipkart ETV Campus, Bangalore, KA / September 2022 – 16-September 2024**

#### **Project: IT Business corps**

- Enhancement of script with new business logic into the existing on old script.
- Migrating DB objects from SQL to Hive int FDP (Flipkart Data Portal).
- Good knowledge in Creating of Data Base Objects like Procedures, Functions & packages Etc.
- Good knowledge in Hive & Spark Sql.
- Basic knowledge in QlikView application, loading huge file into Qv app to give required report to the user as per business logic.

### **Digital Engineer – Operations**

**Azentio ,Hyderabad, TS / April 2022 – July 2022**

#### **Project: Amlock (Anti Money Laundering)**

- AMLock typically involves monitoring financial transactions in real-time to detect any irregular patterns that could indicate money laundering, such as unusual transaction sizes, frequency, or geographic location.

- The system flags transactions that deviate from normal behavior (e.g., large cross-border transfers, multiple rapid deposits or withdrawals, transactions with high-risk countries).
- Transactions are categorized based on risk levels. Higher-risk transactions are flagged for further investigation.
- The AMLock system facilitates the automatic generation of SARs or equivalent reports that are required by financial regulators when suspicious activity is detected.
- These technologies can help predict future risks by identifying emerging patterns that may indicate money laundering schemes, such as layering techniques or trade-based money laundering.
- Ultimately, the AMLock project (or similar AML solutions) helps institutions ensure they are operating within the bounds of the law while protecting themselves from financial crime, reputational damage, and legal repercussions.

### **Database Developer**

**Wipro Technologies, Bangalore, KA / August 2021 – March 2022**

**Project: ICICI Bank (OFSA ,Oracle Finance Service Application)**

- PL/SQL Coding, Debugging.
- Writing Jobs, using utl\_file package for generating reports.
- Developing Procedures and Functions as per the requirement.
- Creating database objects through development and testing environments.
- Convert the business need in to technical complex queries.
- Creating triggers for maintain audit for business logics.
- Used schedule jobs for generating reports (Daily, Monthly, Yearly)

### **Database Developer**

**Wipro Technologies, Bangalore, KA / November 2020 – July 2021**

**Project: GOG (Government of Gujarat)**

- Developing Packages, Procedures and Functions as per the requirement.
- Working experience on data migration, Audit Logs, Job scheduling and Reports.
- Perform design reviews and provide assistance to junior software engineers.
- Creating database objects through development and testing environments.
- Developing SQL queries for the complexity of calculation and interest amount calculations.

### **Personal Gap**

**August 2019 – October 2020**

### **Transaction Processing Associate**

**Conduent Business Services India LLP, Visakhapatnam, AP / July 2018 – July 2019**

**Project: Workers Compensation**

- Processing the health care claims of US based insurance company.
- As per processing the health insurance claim and ensured into the workers compensation.
- During the training period, associate trainees typically undergo orientation sessions, job-specific training, and hands-on experience under the guidance of more experienced colleagues or trainers.
- The goal is to familiarize them with the company's policies, procedures, systems, and tools, as well as to develop their skills relevant to their job responsibilities.
- The duration of the training period can vary depending on the complexity of the role and the company's training structure, ranging from a few weeks to several months.

**Place: Bangalore**
